

PRESS RELEASE

Miller Paint now offers Sansin Envirostain in over 50 locations.

Strathroy, ON and Portland, OR -- August 6, 2015—The Sansin Corporation, a global leader in environmentally friendly wood protection, announced today that Miller Paint Co., Inc., a leading manufacturer-retailer of paint and coatings in the Pacific Northwest, will carry Sansin's Dec deep penetrating two-coat protection and ENS an extremely durable finish for exterior wood in all 51 Miller Paint locations. The expanded availability follows on Miller's initial success carrying Sansin exterior products in just a few stores.

"Increasing the number of our stores carrying Sansin products presents a significant opportunity to provide more of our customers with proven, ultra-premium exterior stains and finishes they expect from us," said Paul Sawyer, Senior Vice President, Miller Paint. "Our previous experience carrying Sansin wood exteriors and the trust we have from the knowledge and outstanding support they provide makes this an ideal fit for us."

Sansin Dec provides high quality performance and beauty for decks, known to be among the most challenging of wood surfaces because of their walking surface, UV issues and horizontal take of moisture. Sansin ENS provides tough, effective protection for all exterior wood surfaces, which is a considerable climate concern for Miller Paint's customer base in Idaho, Oregon and Washington.

"We couldn't be more pleased to be expanding our relationship with a company as highly regarded and successful as Miller Paint," said Sjoerd Bos, Vice President, Sansin. "Sansin is committed to providing customized support along with our high quality products to provide an unmatched customer service experience for our dealers."

About Miller Paint

Miller Paint Co., Inc. is a 100 percent employee-owned company that has been manufacturing and selling the highest quality paint and coatings products in the Pacific Northwest for 125 years. Their corporate headquarters and manufacturing facility are located at 12812 NE Whitaker Way, Portland, OR.

About Sansin

For 25 years, Sansin has been the only wood protection company focused exclusively on researching, developing, and introducing environmentally-friendly, 'water-borne' interior and exterior wood products and technologies that deliver outstanding color, durability and performance without the toxicity found in conventional stains. Sansin Enviro Stains use water, not oil, to deeply penetrate and protect wood naturally, from within. Headquartered in Ontario, Canada, Sansin has dealer locations across Canada and in the U.S. To learn more about The Sansin Corporation, or how to become a Sansin preferred dealer, visit sansin.com.
