

WoodForce™

BEAUTIFULLY
WEATHERED

PERFECTLY
PROTECTED

Three formulas. Unlimited creative wood protection possibilities.

WoodForce is an innovative wood protection system that creates a beautiful naturally-weathered look for exterior wood, while delivering exceptional water repellence and protection against UV, moisture and blackening.

In the past, allowing wood to weather naturally also meant exposing it to UV and moisture damage. That is no longer the case. The WoodForce system offers not just industry-leading exterior wood protection, but also a whole range of custom barnboard colors and beautiful vintage effects. Let your creativity flow wherever your imagination takes you!

Easy to maintain, WoodForce will keep your wood looking beautiful for years to come.

WoodForce Clear

This versatile wood treatment protects against water and UV damage, while allowing wood to weather naturally. Easy to apply and maintain. Mixed with Intermix colors to create barnboard colors or vintage effects.

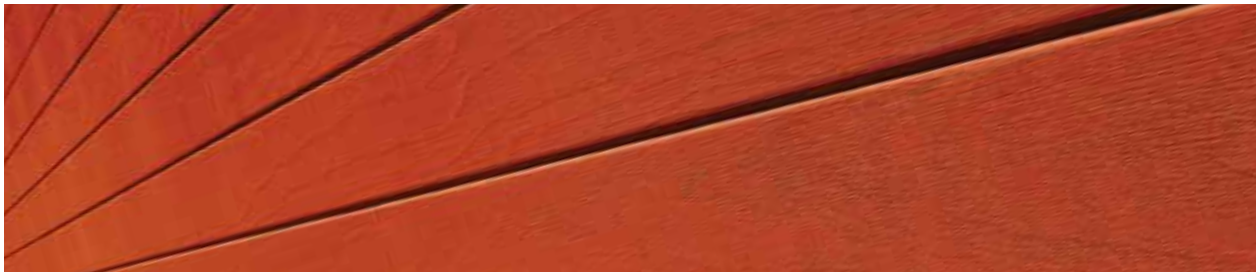

WoodForce Accel

Accel is designed to be used in conjunction with WoodForce Clear and speeds up the effects of natural weathering while protecting your wood.

WoodForce Intermix

Using 7 base colors, Intermix can be combined for an unlimited range of barnboard-style colors that can be allowed to weather naturally, or technique with brush, rag, or roller to achieve custom vintage effects.

- Protects wood while allowing it to weather
- Create a full range of weathered looks, colors and effects
- Environmentally friendly
- VOC Compliant
- Red List/CARB Compliant
- Penetrates the substrate
- Water repellent
- Breathable
- Clean up with soap and water
- Exceptionally easy to maintain

Getting the perfect weathered look has never been easier.

EFFECT	Clear	Accelerated	Barnboard Color	Vintage Color
